Password

[Create Account](#) [Cancel](#)

2. Once an account has been registered, the below Workspaces needs to be imported to your account. Click on the below links to import the workspaces.

Spotify Dataset: <https://ide.hpccsystems.com/workspaces/share/fdfa192e-9275-4545-95b8-013b6d9ff083>

Gaming Dataset: <https://ide.hpccsystems.com/workspaces/share/64994640-d717-42e8-8737-13eda79364c3>

3. Once the workspaces are imported, please select a workspace from the drop down.

4. The scripts available in the workspace will be loaded. Click on each script to see the content
